

The Bleacher Bar – Fenway Park

Boston, Massachusetts

Client: The Lyons Group

Cubellis provided design and A/E services for this baseball-themed 3,300 SF, full-service restaurant and bar located under the bleachers of Fenway Park. Design goals accomplished:

- Maximizing the design to accommodate game days and “real time” view of Fenway Park through the “portal” from centerfield.
- Developing an architectural theme to celebrate the Fenway Park flavor and utilizing space that was formerly occupied by batting cages.
- Maintaining the excitement of being “under the bleachers” at Fenway Park while addressing issues of acoustics, lighting, queuing, and circulation.
